Death of Mr. Gutknecht.

The death occurred on Saturday last of a well known farmer of the Golden Spike District, Mr Julius Gutknecht. Deceased had been suffering from an attack of grippe for a short time, but nothing serious was feared. On the night mentioned he was sitting up, conversing with members of the family, when he was seen to topple over, and expired before aid could be procured.

Coroner Oatway made an investigation, and found the case as stated.

New Highways Act Drafted.

An entirely new Highways Act will be presented at the coming session of the Provincial Legislature by the Hon. Alex. Ross, Minister of Public Works. The details of this Act have been before the Cabinet at several of its recent meetings, but Mr Ross is expected to give the information at the Convention this week of Alberta Municipalities.

Implement Prices Reduced.

Farmers and all who are directly or indirectly connected with the farming industry are gratified to learn that the International Harvester Co. has materially reduced the prices on its general line of farm machines. Mr Mike Ducholke, the local agent, says the prices have not been given an insignificant cut, but that there has been a real price reduction. The following are a few instances: 8-ft. binder reduced \$60. No. 52 gang plow reduced \$44.50.

9-ft. cultivator reduced \$28.20 20 marker plain lift double disk drill reduced \$57. 6-ft. disk harrow reduced \$21. McCormick 31" wagon reduced \$42.50. Climax 31" truck reduced \$30. Prices on the remainder of the line are reduced proportionately.

At the new prices I. H. C. farm implements cost you less, pound for pound, workmanship and materials considered, than any manufactured article you can buy. Even the ordinary kitchen range sells for a higher price per pound than the highly-perfected binder.

If you are interested in the new price of any implement not listed above, write or call on Mr. Ducholke, at Stony Plain.

In Search of Knowledge.

A Boston paper says that the pastors of that city have accepted the challenge of union labor to try their hands with picks, and shovels, and hods, while labor leaders occupy the pulpits, the avowed object of the experiment is to enable both sides to learn something. What both sides will probably learn is that the cobbler should stick to his last. A man may succeed in carrying the gospel and at the same time make a very poor fist of carrying the hod. And so also a man may be able to build a church and know very little about building up a congregation.—Woodstock Sentinel Review.

Double Murder Near Edson.

Foul play is suspected in the finding of the dead bodies, marked by bullet wounds, of T. Woodley and Robt Ferguson, two Edmonton returned soldiers, near Hargwen, 31 miles west of Edson, last week.

A Davis, an American who has been fur trapping in the district for the past five years, was suspected of the crime, and arrested and taken to Edmonton. Davis is a bachelor about 45 years of age, and had his lonely shack on the shores of Obed Lake.

Directly across from Davis' shack is an old beaver dam, which Davis had repaired, backing up the shallow water of the lake, giving a fine home to hundreds of muskrats, which Davis had come to look upon as practically his own property.

Woodley and Ferguson learned of the presence of muskrats in the district and determined to hunt them. The two men reached Hargwen Friday, Dec. 2, intending to try out the country and return to Edmonton for supplies. At 7.30 Sunday morning they set out for a final visit to their traps. They were not seen again alive. On Wednesday morning the two bodies were found by Constable Wood, of the A.P.P., at Edson.

Liberals in the Majority.

The big election is now over, and the Liberal Party, headed by the Hon. W. L. M. King, has won at the polls. There were numerous surprises in the results, notably Quebec, which went Liberal by its full quota of 65 seats. It is not known, as yet, when the Meighen Administration will resign, but it is expected it will come in a short time.

Hon. W. L. M. KING,

Canada's New Premier.

In West Edmonton, that old war-horse, Hon. Frank Oliver, put up a gallant fight, and it was several days before it was known conclusively that Kennedy was the victorious candidate. This is the first time that the Hon. gentleman has lost out at the polls. Had he been returned, there is no doubt but that he would have been called to a place in the Cabinet which is now forming.

Following is the general result:

Canada's Opportunity

Feelings of unrest and the state of depression which have prevailed in Canada are but a reflex of similar conditions throughout the world, and the cause can be attributed very largely and directly to conditions brought about by the Great War. Only through a general improvement in world conditions can a permanent betterment be effected, but in the bringing about of that general world improvement each nation has a part to play. In addition, each nation must assiduously set to work to overcome existing difficulties and find a solution for present problems as they are found to exist in each particular country.

The conference on the limitation of armaments at Washington is one important step towards bringing about what cannot fail to be a vital factor in reducing the burden now imposed on the economic structure of the world, and in lowering the tremendous load of taxation levied on all peoples. Aside from the enormous reductions to be effected in war expenditures, the agreement for limitation of armaments, which now seems assured, will have an even more beneficial effect because the result must be to greatly reduce the danger of war in the future, thereby giving confidence and stability to world finance, trade and commerce.

The successful outcome of the negotiations between the British Government and the representatives of Southern Ireland is a second and enormously important step towards a rehabilitation of confidence throughout the English-speaking world. It means much to the whole British Empire as it removes the one great danger spot of friction and ill-will within the Empire. The solution of the Irish problem also means a betterment in the relations between the Empire and the people of the United States, and this is of the greatest importance to Canada and cannot fail to have a steady and beneficial effect in this Dominion.

A third event, bound to have a good effect on business conditions throughout the Dominion, is the holding of the general election in this country, when, for the first time in a decade, the people have had a free and untrammelled opportunity to pass judgment on questions of purely domestic policy. Until a verdict of the people was obtained there was bound to be a considerable degree of political unrest and business uncertainty. The people of Canada had become divided into several groups on economic questions and the impression prevailed generally that for a period of years it was going to be extremely difficult to carry on government in this country without resort to log-rolling and the making of dangerous compromises. This inevitably had an adverse effect on business and the people as a whole.

Quite apart, therefore, from any consideration as to which one of the three political parties has emerged victorious from the battle of the ballots, people are breathing a sigh of relief that one of the three has been given a sufficiently large following in the new Parliament to enable it to direct and carry on the business of government. This, in itself, is bound to have a good effect in removing the former uncertainty, and with the ending of the uncertainty there will follow a removal of much unrest. Depression will thus, to a very considerable degree, give place to confidence, and with increased confidence a renewal of activity will follow.

It remains now for each community and individual citizen to loyally accept the verdict of the majority, and for all to join hands and forces in a great co-operative effort to develop the great natural resources of this country to their maximum extent and thereby swing Canada into an era of prosperity for all.

Canadians should enter into this great national work with stout hearts and a will to succeed. "It can be done." The divisions and feelings engendered in the past should now be buried with that dead past. What is required is a united Canada; a Canada with a forward look; a Canada imbued with optimism; alive with energy, thrilled with a national enthusiasm, and inspired with a true Canadian national spirit. It means that every Canadian must work and work hard, and it must be the business of government and of every community and individual to see that remunerative, constructive work is provided for all.

The dark days of adversity which have for so long hung over the world are lifting; there is a silver lining all around them and that lining is broadening in extent and becoming brighter all the time. Through a union of all their forces, and the application of all their energy and skill to the development of their great wealth of natural resources, the Canadian people can easily place this Dominion very quickly in the front rank of the nations treading the paths of prosperity.

"I don't care," interrupted the man boldly "so long as they don't button down the back."

Minard's Liniment for Distemper

Too Many Short Cuts

Efficiency is Not Reached Until Details Are Mastered Learn a trade and don't be satisfied until you have mastered the details and are able to prove you are a specialist at your job. One great trouble today is that short cuts are taken to shorten apprenticeships and the result is often a "botch" turned out instead of a workman. The same is often true of school and college life; anything to get in the prescribed time, and as a result it is often a poor stab that is made at the examinations. You can't grow an oak on mushroom principles.—Brussels Post.

DIET NOT EVERYTHING IN KEEPING HEALTHY

Your table may be loaded with food digestible and wholesome, yet you don't get strong. What's the trouble? The liver is lazy, stomach is overloaded, the bowels are not active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak sickly people strong and well because they keep the system clear of impurities. Those who regulate the system with Dr. Hamilton's Pills don't have indigestion or constipated headaches, they feel enlivened all over, because their system is kept in smooth running order. To invigorate and stimulate your whole being, to shake off lethargy and tiredness, nothing compares with Dr. Hamilton's Pills, which certainly bring good looks good spirits, good health, 25c all dealers, or The Cataract House Co., Montreal.

WHEN NERVES ARE NEAR EXHAUSTION

A Tonic Should Be Taken To Enrich the Blood

When you become so exhausted after a day's work that you cannot sleep, or sleep fails to refresh you, it is time to look after your health. Failure to act at once means a steady drain on your health reserve, which can result in but one thing—a nervous breakdown.

Do not wait for a breakdown. The treatment is simple enough if you do not let your condition become too far advanced. The treatment is one of nutrition of the nerve cells, requiring an effective tonic. The nerves have to be nourished by the blood, the vital fluid must be built up. Dr. Williams' Pink Pills directly on the blood, and with proper regulation of the diet have proved the greatest benefit in nervous troubles. Mrs. Mary McAdams, Sydney Mines, N.S., is one of the many who has proved this tonic treatment. She says: "Last winter my health completely gave out. I was all run down and my nervous system in a condition that greatly alarmed me. I often had nervous headaches, and at times severe pains in the back of my head. I felt as though I would never be well again. My husband got me a supply of Dr. Williams' Pink Pills and before the second box was finished I began to improve, and under a further use of the pills I felt as well as ever. I would advise all weak and nervous women to give this medicine a trial."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Rich Embroidery Trims a Coat of Poiret Twill

By Marie Belmont

This lovely coat is developed in tan Poiret twill combined with dark brown. The latter is chosen for the upper part of the coat as well as the under part of the sleeves. The skirt of the coat is lavishly adorned with dark brown embroidery, and this enriches the upper part of the sleeves. Beaver fur encircles the neck and also makes handsome cuffs. The wide belt is slipped through a buckle of unusual size, while a solitary button fastens the collar. The hat that accompanies this is of brown tawny plush and is trimmed with flowers.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. That is because Catarrh is a local disease, it is not a general one. HALL'S CATARRH MEDICINE is a powerful medicine that cleanses the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. How "Humburg" Originated

The expression, "all humbug," had its origin during a Continental war, when many false reports were circulated in Hamburg. It became customary for anyone wishing to signify his disbelief in a statement to say, "That is humbug," and so the word "humbug" found its way into the language.

Minard's Liniment for Garget in Cows

MRS. MARY WILHELM

"No matter what I should say about Tanlac, it wouldn't be half good enough, said Mrs. Mary Wilhelm, 716 Mint Way, South Side, Pittsburg, Pa. "I never dreamed it possible for a medicine to restore me to the splendid health I now enjoy. In fact, I had almost resigned myself to being an invalid, as I could see I was losing weight and strength every day, and no relief was in sight. For three years stomach trouble, headaches and nervousness made my life miserable. "The first bottle of Tanlac acted almost like magic and it wasn't long until I was so well and strong that I could hardly realize I had ever known a sick day. I am like a different person in every way now, eating, sleeping, feeling and looking better than in years."

Tanlac is sold by leading druggists everywhere.

OF INTEREST TO WOMEN

This is a Short Letter, But It Proves the Reliability of Lydia E. Pinkham's Vegetable Compound.

Bethwell, Ont.—"I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I recommend your medicine to my friends, and you may use my testimonial. W. J. Brady, R. R. 2, Bethwell, Ont."

Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, beneficial influence, and as it contains no narcotics or harmful drugs it is a safe medicine for women.

If you want special advice write Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot Afford to Neglect It

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatic fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Anuric Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Anuric is the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they, too, have all been benefited by them."—Mollie Collins.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Anuric Tablets which are to be had nowadays at almost any drug store or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for total package and write for free, confidential medical advice.

Engineer Found They Had Eaten Through Lead Cable

An extraordinary instance of the boring power of white ants comes from New South Wales.

An engineer who was repairing a buried lead-covered telephone cable found that the ants had eaten their way inside. They had first bored through an outer covering of timber, which had been purposely steeped in arsenic, then through a layer of soft paraffin, and finally through the lead covering itself.

In spite of their difficult journey and their meals of arsenic and paraffin, the ants were full of life when they were discovered.

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation, colic, indigestion; break up colds and simple fevers and make the baby healthy and happy.

Concerning them, Mrs. Albert Hamel, Pierreville, Que., writes:—"Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would, and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A Hundred Dollars Worth For Thirty-Five Cents

When you are awakened from a sound sleep by Cramps, when without a moment's warning pain springs upon you, it's when you would readily pay a hundred dollars for the quick relief you could secure from a thirty-five cent bottle of trusty old Nerviline. Nothing like Nerviline to relieve cramps, stomach gas, diarrhoea and kindred ills. Nothing better for Neuralgia, cold in the chest and sore throat. The price of Nerviline is thirty-five cents, no more, no less, in all stores where medicines are sold.

Most of the shadows of this life are caused by standing in our own sunshine.

A Little Bit of Time

Measuring a Thousandth Part of a Second

What can happen in the thousandth part of a second?

This question comes to the mind when we hear of the wonderful instrument in use at the Royal Observatory at Edinburgh, Scotland, which Professor Sampson recently described at the British Association meeting. A wireless signal will travel 186 miles in a thousandth of a second; a ray of light will do the same; an express train travelling 60 miles an hour will cover just under one inch in the time.

It is for registering with great precision the time of any signal that this wonderful instrument has been made. It is an electric detector and records the movements of a tiny spot of light on a moving photographic film. These very minute measurements are becoming more important every day, as it is only by studying the infinitely little that our knowledge of the big things can be advanced.

As a vermifuge an effective preparation is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

True Self-Esteem "That fellow," said a man, as he pointed to a passing youth, "is the most egotistical young fellow I ever met."

That Is What You Can Do Provided You Take Advantage of Our Offer

We have made arrangements with the E. H. Heath Co. Limited who publish the **CANADIAN POWER FARMER** whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The **CANADIAN POWER FARMER** is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editor has just completed a trip of several months over Western Canada in a motor car for the purpose of studying the mechanical needs of the farmers. He visited the farmers, lived with them and worked with them. The results of his trip will appear during the next twelve months.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to **THE CANADIAN POWER FARMER** for the same price as this weekly alone. This is where you make \$1.50 on a bushel of wheat.

Wide-Bank Sleighs.

To firmly establish the use of wide-bank sleighs, a district wide campaign is being conducted by the Edmonton Good Roads Association, and already a number of the districts have endorsed the proposal. These have signified a willingness to co-operate in every possible way toward urging the Government to enact legislation which will bring the wide-bank sleigh into being.

It is everywhere realised that the wide-bank sleigh would assist a great deal in keeping country roads and trails open for all traffic throughout the winter months, and would materially assist in the general upkeep and improvement of these roads.

That enterprising garage-man, Mr John H Miller, had this same matter in hand last winter, and expended a lot of energy in getting signatures to petitions, which were presented to the Government, and it is understood that the Administration in power at that time had plans formulated which would have been put into effect the present winter.

Canada's New Coat of Arms.

Every home in Canada, every Canadian school boy and girl should know the new Canadian Coat of Arms. It is a most beautiful plate and should occupy a prominent place in all true Canadian homes. The people of Canada are indebted to the Family Herald and Weekly Star of Montreal for reproducing the new Coat of Arms in all its heraldic colors and presenting a copy, 14x17-inches, to all readers of that great paper.

The Family Herald and Weekly Star is Canada's greatest family and farm paper and is known throughout the whole Dominion. It is wonderful value and provides every member of the family with clean, wholesome, instructive reading. It is a great money saver for the farmers of Canada and, besides, the subscription price one has paid each year. Canada is proud of the big weekly. It has no superior the world over and is improving year after year. It costs only two dollars a year and each reader for 1922 will receive free a copy of the "Coat of Arms."

Liberal Party Is Returned To Power By Large Majority

Ottawa.—After ten years in opposition, the Liberal party is again returned to power. In the new House, Hon. W. L. Mackenzie King will have a clear majority over all parties. Of the three parties Progressive stand second and the Government party third. In the three provinces of Prince Edward Island, Nova Scotia and Quebec, the Liberals swept every seat. The new National Progressive party, by securing fifty seats, will become a factor in Dominion politics. The Progressives did not secure the support that was expected in the east, but in the provinces of Alberta, Manitoba and Saskatchewan they made almost a clean sweep.

The Government has retained little more than a third of the seats it held at dissolution. The prime minister was defeated in his own constituency and with him were defeated eight members of his administration. The defeated cabinet ministers were:

Rt. Hon. Arthur Meighen, prime minister.
Hon. L. P. Normand, president of the privy council.
Hon. Rodolph Monty, secretary of state.
Hon. L. G. Bely, postmaster-general.
Hon. A. Fauteux, solicitor-general.
Hon. C. C. Ballantyne, minister of marine and fisheries.
Hon. E. K. Spivney, minister without portfolio.

\$30 A WEEK MECHANIC JUMPS TO \$750 A MONTH

Out in Chehalis, Washington, U.S.A., lives W. E. Pence, "Electrical Expert." Chehalis isn't much of a town, somewhere between 5,000 and 5,500 people—and Pence doesn't pretend to be a whirlwind "Master of Finance" by any means. But his income is the talk of the town. With great pride he exhibits the books of his Electrical Business which show a net profit of \$750 a month.

Pence says himself, that he never dreamed of earning so much money two years ago. At that time he was making \$30 a week and wondering if the time would ever come when his pocket book would let him buy everything he wanted, like he now is able to do.

OWES SUCCESS TO ELECTRICITY
Pence doesn't talk much about his success. He isn't that kind. But when he does talk about Electricity and the great future it holds for men and boys—he lets it right from the shoulder. Without any reservation he gives all credit for his amazing success to the thorough training he received which he received in spare time during the past few months.

But let Pence tell you his story. Read his letter dated October 9, 1921, to L. L. Cooke, Chief Engineer of the Chicago Engineering Works:

Dear Mr. Cooke:
Less than a year ago I was an ordinary mechanic earning \$35 to \$50 a week. Today, thanks to you, I am an "Electrical Expert" in business for myself and making over \$750 a month. My Success, Mr. Cooke, is due entirely to the invaluable help you have given me during the past few months. The thorough, practical training I secured through your "Easily Learned, Spare Time, Home-Study" Course in Electricity, has made me financially independent, and a highly respected business man in this community.

Sincerely Yours,
W. E. Pence.
For 15 years Mr. Cooke has been training men at home, in their spare time, for Big-Pay Electrical positions, and he has received thousands of letters like this. His system works every man, regardless of age, education, or previous experience, the chance to become in a very short time an "Electrical Expert" able to earn \$3500 to \$10,000 a year.

ELECTRICALLY TRAINED MEN IN DEMAND

Because of its prominent position in the Electrical Field, The Chicago Engineering Works frequently is called upon, by industries in the larger cities of the United States and Canada, to supply trained men for electrical work. To meet these demands Mr. Cooke is now enrolling men for special quick training. He expects to develop from this class a bunch of "Electrical Experts" who can go out and take over the big electrical jobs that open up from time to time.

Complete particulars and actual proof of the great demand for "Electrical Experts" is contained in a booklet entitled, "How To Become an Electrical Expert," which may be had without cost by writing Chief Engineer Cooke, Chicago Engineering Works, 2150 Lawrence Avenue, Chicago, U.S.A.

Winnipeg Judge Keeps Promise
Winnipeg.—Magistrate Sir Hugh J. MacDonald made good his promise to suppress violent crime in Winnipeg with the lash when he sentenced John Hildy to five years in the penitentiary and his lashes. Hildy and two companions staged a daylight robbery here, the victim of which was struck over the head with a piece of stove wood. The two companions also received a five-year sentence, but no lashes.

Tokio Wants Health Centre

Americans Being Interested in Expanding St. Luke's International Hospital

New York.—Tokio wants a health centre like those of the large cities of the United States and Europe. In an effort to obtain it, Dr. R. B. Teusler, director of St. Luke's International Hospital at the Japanese capital, has just come to New York to interest Americans in a project to so expand that institution as to equip it to perform the functions of a health centre. At present Tokyo has no institution that would correspond to the health centres of other nations.

U.S. View On Dominion Elections

Opinions Varied on Possible Tariff Actions of New Canadian Government

Washington.—There is much speculation among members of Congress as to the possible effect of the elections on tariff relations between the United States and Canada. Special interest is being taken in the situation by members of the House ways and means committee who have jurisdiction over tariff matters. Despite the fact that Premier Meighen, who openly advocated a high tariff for Canada, has been defeated, some authorities in Congress express the view it would be difficult to revive reciprocity or bring about mutually low tariffs.

Representative W. R. Green, of the House ways and means committee, said the real difficulty would be to find a place to start. He said with United States' farmers and manufacturers both insisting on high tariffs, he did not see how reciprocity could be revived.

Others take the view that if the Harding administration is given the broad powers it seeks in handling tariffs, the new Government of Canada will be able to achieve much in keeping down tariff barriers by negotiating with the President.

Mennonites Leave For Alabama

Will Establish New Homes in Southern State

Regina.—The trek of the Mennonites from Saskatchewan has commenced. The first special train bearing a party of 115 of these people left Regina on its way to Yellow Pine, Alabama, where they intend to establish their new homes. The clearings of the United States Land and Cattle Co. The special train they are taking up was chosen by friends who went to Alabama some months ago and who have reported the district as one very favorable for settlement by the Mennonites.

This is the first large party to move, and the forerunner of others, for Mr. Emerson, who is directing the Mennonite movement, has announced that fully fifty more families are expected to leave before six weeks have elapsed.

Jamaica Prefers Canadian Flour

Change in Bill Will Affect Imports From U.S.

Kingston, Jamaica.—The Government introduced a tariff bill in the Legislative Council under which provision of 5 per cent. in given all British manufactured goods. British cotton piece goods will obtain a preference of 50 per cent, and Canadian flour a preference of 25 cents per bag. These changes in the tariff, it is believed, will materially affect importations from the United States.

Immigration Quotas Exhausted

Miss Flora Boyko Tells How Cuticura Healed Her Pimples

"My face was very itchy at first, and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were small, and they were scattered all over my face and were so itchy I had to scratch and could not sleep."

"These bothered me nearly a year before I used Cuticura Soap and Ointment as needed. I used five boxes of Cuticura Soap and five boxes of Cuticura Ointment. It was healed."

U.S. Will Increase Prohibition Force

Congress Asked to Vote Additional Ten Million Dollars

Washington.—Seven hundred and fifty additional dry agents are to be added to the prohibition forces, if Congress allows the estimate of \$10,000,000 deemed necessary for prohibition enforcement during the fiscal year 1923.

These agents would be concentrated in mobile forces to go into several of the largest cities in the country for cleanup drives. From these cities the forces will be shifted to border points and to sea coast cities for drives against widespread successful boot smuggling.

China Orders Goods From German Firms

Process of Recovering Business Connections Will Be Slow

London.—The Germans are gradually returning to China and picking up the threads of their former business; not trading for the present under their own names, but in partnership with Chinese, says a report on the commercial situation of China by H. H. Fox, commercial councillor of the British legation in Peking.

German dyes and paints, needles, metals, drugs and sundries are beginning to appear on the Shanghai market, the report goes on, and it is stated that several important orders for machinery and electric plants have recently been booked by German firms.

There is no doubt, the report says, that the Germans assisted by the comparative cheapness of their products, will gradually recover the share they held in China's foreign trade before the war, but the process will be slow, as they have lost valuable connections, the business organizations they had so laboriously built up have been shattered, and they have suffered a serious loss of prestige in the eyes of the Chinese.

Bandits Captured in Vera Cruz

Buenos Aires.—Government forces have gained the upper hand over the bandits who have been terrorizing the inhabitants of the territory of Santa Cruz. Colonel Varela reports the capture of about 500 of the outlaws, together with 8,000 horses and quantities of arms and ammunition, and the recovery of booty valued at 70,000 pesos.

London.—With the tension and anxiety of the past week giving place to general rejoicing, preparations are being made for the necessary festivities for bringing the new Irish Free State into being.

Nowhere is there any real idea that anything can now happen to prevent its birth, although difficult detail may have to be encountered.

Downing Street was inundated with telegrams of congratulation from all over the world. The Premier presented to Lady Greenwood, the wife of Sir Hamar Greenwood, chief secretary for Ireland, the pen with which he signed the Irish treaty as "an appreciation of your husband's efforts for peace." It is recalled that the Prime Minister's first speech of importance in his political career was delivered in the company of Michael Davitt at a political meeting in Wales in the eighties, and it was in favor of home rule.

One of the first fruits of the peace—probably arranged for at the conference when the treaty was drafted—was the Royal proclamation releasing more than 5,000 prisoners interested in Ireland. It is reported also that there may be reconsideration of the sentences imposed on those Irishmen convicted of political crimes.

Mother! Open Child's Bowels With California Fig Syrup

Your little one will love the "fruity" taste of "California Fig Syrup" even if comatose, bilious, irritable, or full of colic. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Thousands of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for the genuine "California Fig Syrup" which has directions for babies and children of all ages. You must say "California" or you may get an imitation fig syrup.

Guardsmen On Duty At Packing Plant

Safeguarding Employees at St. Paul Opposed to Strike

St. Paul, Minn.—Minnesota National Guardmen were stationed at the packing plants district of South St. Paul, prepared to carry out instructions of Governor Pless for safeguarding employees who wish to work, despite the strike of the meat packers and butchers. More than 600 Guardmen were mobilized in the district, and it has been planned to clear strike pickets from the streets leading to the plants.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same round of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and the rest irritable and nervous, has hot flashes, faint and dizzy spells, smothering, fainting spells and can't sleep at night? To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Benanson, Loganville, N.S., writes:—As I was troubled with a weak heart for nearly two years I am writing to tell you what your great Pills have done for me.

My heart was so bad at night I could not sleep. I would take several pills, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. This is the best remedy for heart trouble there is."

Price, 50c a box at all dealers, or mailed direct at special price of \$2.00. The T. Milburn Co., Limited, Toronto, Ont.

Inga Tax Sale.

Although the hour had not been advertised, a fairly large crowd put in an appearance at the sale of Inga M. D. lands for taxes, Friday last. Some choice pieces of land were sold at reasonable prices but not many quarter sections went for \$25 or under, as at previous sales. There is said to have been several places advertised for sale on which the owners held receipts for taxes paid.
